Medical Research Council
NATIONAL INSTITUTE FOR MEDICAL RESEARCH
Mill Hill 3666 London, N.W. 7

23th July, 1966.

Dear Dr. Shockley,

Since you ask explicitly for my opinion of your interview as recorded in the U.S. News and World Report, I must tell you that I do not feel you know very much about this very complex subject. I disagree with a great deal of what you say. My sympathies thus lie entirely with your outraged genetical colleagues, to whom I am sending a copy of this letter.

Yours sincerely,

IBM Watson

(Medawar)
